

MDS-Package ServicesSM

MDS Fulfillment originally developed MDS Package ServicesSM to lower shipping costs, support package tracking technology, and uphold the timely delivery standards of higher cost parcel delivery systems such as UPS and FedEx. The first application of MDS Package ServicesSM succeeded in its mission with high-volume continuity and product rebate based fulfillment programs. The benefits of this service are now helping e-commerce ventures to boost margin and compete more aggressively on price.

In the first year, MDS Package ServicesSM saved one client \$72,000 and another \$10,000 in shipping costs.

Simply stated, MDS Package ServicesSM can save you from \$1.00 to \$3.00 per package in shipping and mailing costs, as the example below illustrates.

Rate shown is for a 4 LB package, zone 4.
Illustration is based on shipping 200 packages.
Applicable fuel surcharge, pick-up, accessororial fees included

Benefits
